The Legislature passed a series of resolutions endorsing Young, and also an act attaching Green River county (where the troops are) to Salt Lake City.

Young, Kimball, Wells, and several other prominent dignitaries of the Mormon Church, have been midicated by the Grand Jory of the United States District Court for Green River county (John D. Lailford, foreman,) for high treason.

We have through the politeness of one of the gendemen alluded to above been permitted to take a hasty pernsal of Brigham Young's message to the Legislature of Utah, so wa can only give the outline of it.

Mr. Green intimated that he would call for a direct vote on the Kansas question on Monday next.

Mr. Doolittle resumed his speech.

Nessate.—Mr. Poolittle referred to the extraordi-

of the North and South, he said that the hog crop of the l'aited States surpassed the whole cotton crop of the South in value; and to the taunt that Northern Isborers were aloves, he stated that his own father was a laborer, and other gentlemen on that floor stood in the same category, and asked if he and they were to be branded as the sons of slaves? He then passed to Kansas, showing the inconsistency of the advocates of the Lecompton constitution. The President bases the legality of that constitution on the Kansas-Nebraska act. Mr. Hammond takes a different ground, contending that the sovereignty of

themselves and was perfectly legal. The answer to the question, "Why didn't the free State men of Kanasa, if in the majority, vots for delegates to the convention?" Le showed by many familiar facts that in numerous cases they could not vote in consequence of several countres being disfranchised; also, that they had been soleiunly assured the constitution would be indmitted for the approval of the people. This assurance was given by Calhoun himself, as well as by Buchanan in his messages and through his chosen organs, Waiker and Stauton. He denied the correctness of the President's assertion that when the siavery clause was submitted all was done that was necessary. When he was arrested he was standing in the plaza, not far from this place. Getman tapped him on the shoulder and requested a few moments' conversation with him on business of importance. Reed said merely, "wait a moment until 1 epeak to a friend," wheu, turning his back, he pulled and cocked a Derringer, which, wheeling anddenly round, be presented full at the hreast of the officer, and discharged. Mr. Seward delivered a lengthy speech on the subject, discussing the following propositions: 1st—That, whereas, in the beginning the slave power and absolute, it is now being reversed. 2d—That, whereas, heretofore the national government had favored the change of the balance from the slave to the free States, it has now reversed this policy and ourses. the change of the balance Iron the slave to the free States, it has now reversed this policy and opposes the change. 3d—That national intervention in the Ferritories in favor of slave labor and slave States is opposed to the national, social, and moral developments of this republic.

In arguing these propositions, Mr. Seward said that Nebraska was resigned to free labor without a struggle, and Kanasa became the theater of the first actual national contest between slave and free labor. Mr. Hughes, of Ind., Mr. Bilboa, of Tenn., and others. BRIDGEPORT INSURANCE COMPANY FOR THE STATE OF KENTUCKY.

As fits the theme I now, presumptuous, to discord break the charm as once again

Oh! now, divinest Muse! assist my pen! Fairer she is than aught on earth beside; ovely as is the hright Aurora, when She blushes dawn until the efficient tide of tinted radiance all the East has dyed;

And yet-august in lovellucss-slie seem second Pallas, in the conecious pride And maiden majesty, whose heavenly beams radiate her face, like angels seen in dreams.

A thousand charms noon her movements a nit,

i lear, sweet, and silvery is her gentle voice

Tremble in music on her ruby lip, se odors on the rose, inviting bees to sip.

A syren spell no hear r may escu witching words, that, lingering and slow. "

The listeners' hearts, with their medicinous fluw

Thy fitful numbers all the evening air; for now I sing of one divinely fair. Earth bath not seen such excellence till now
